

To Whom it may concern:

The city of Pomona has a great mortgage assistance program! I am a teacher who is single and does not get a very high salary. Several years ago, I came to the conclusion that I would never own my own home. However, This past summer, an opportunity arose for me to apply for the assistance program in Pomona and I qualified! Lily went out of her way to look over my paperwork, meet with me and make sure everything was in order. I can't believe the great house I was able to purchase in a great neighborhood and it is all mine. I have been in the house for four months now and I love it. I even find myself rushing to get home just to enjoy my new home. I recommend the program to anyone who is in the same situation I was in, believing they will never own their own home. Trust me, there is a way!
